

THE PONG
ECO VILLAGE

AN ECO FRIENDLY VILLAGE
in Kangra, Himachal Pradesh

*Because healthy environment makes healthy human and
infinte nature life !*

*“ There is no other planet to live,
Save this...”*

As per the “Eco Friendly” means not harmful to the environment.

“The Pong Eco Village” is the one of the best Eco based Property which called Eco friendly. when we started to work on this project only with a vision to complete it soon with a team of men and without any machine and without harm our Eco surrounding 'In An Eco Manner'. It took the whole team exactly a year to give shape to the vision and finally 'The Pong Eco Village' came into existence. Located on a cliff surrounded by water from three sides, the property derives its existence from how the houses were made 30 -40 years back with mud. The structure reflects the age-old construction ways with a blend of modern amenities.

Our first unit of 8 rooms is operational to host the guests who want to experience serenity and silence apart from the hustle and bustle of the cities. The place is a paradise for solace seekers, trekkers, birdwatchers and nature lovers.

A stay at the resort offers a perfect opportunity to relax in the arms of nature. Each of the 8 rooms has an individual identity and is built up using the local materials. There are multiple dining options at the resort: under a Hut, on a Creek side, or even under the stars.

The Pong Eco Village doesn't have TV in the rooms, even not providing Wi-Fi. Here you have to talk to each other to make your bonding more strong.

thepongecovillage.com

Each room of the resort is made of local laterite stone and have clay tiles, thatched roofs on dining, and open sitting area. The resort also practices eco practices like vermicomposting, rainwater harvesting, and recycling waste water in the garden. Leaving behind the babbling city life, here you can experience the art of doing nothing or unearth the treasures of natures that can be charmed forever.

Some of the meals served in the eco-village are made of organic vegetables that are grown in the resort. If you're looking for a place to revitalize your body, mind, and soul, then the Pong Eco Village is the place to be.

Eco Village....!!! when we hear this world. what comes first in our mind? it's all about our roots, from where we all belong, it's about our culture, food, heritage, peace, health, stress-free, walks into the field, reconnect with yourself, the sound of birds, surrounding by the tree and all positive energy out of our daily exotic life. Everyone wishes they have own village. So now no more confusion your wishes come true.

The Pong Eco village brings you back to your dream Eco village. Let's explore the village Matihaal it's on the edge of pong dam, three sides covered by the reservoir with the landscape view of dhauladhar range. It's a small village consisting of 18 families living peacefully together. Doing farming own their own land. Helping each other on any social or personal occasions, all come together to cook food and serve to the guest. Help each other to make the village neat and clean. Village matihaal has its own beauty like it's on the edge of pong dam surrounded by three sides of reserve water and the rest of free land covered by forest on the top of village historical temple situated from the time of Pandavas (Mahabharat).

From start to the end of village Matihaal offers different scenarios. You can feel yourself in the live painting of nature which is gifted by God.

In the morning of Village matihaal, you can feel like you are at on the beach at the front of the ocean with high waves sound and evening as silent water with sunset. The village Matihall is the combination of Culture, Heritage, Beauty, nature, and peace. The pong Eco village welcomes you into your own village with beauty of nature.
